AKG® STUDIO

19-SPEAKER AUDIO SYSTEM

Experience a collaboration that is rewriting the rule book on what an in-vehicle listening experience could be with passionate, pure and professional studio sound.

1. 87 mm unity with AKG acoustic lens on top of the tweeter
2. 150 mm x 225 mm subwoofer
3. Pair of 40 mm speakers in head restraint
4. 22 mm tweeter with waveguide
5. 150 mm mid-woofer
6. 63 mm mid-tweeter
7. 150 mm x 225 mm subwoofer
8. Main 14-channel class-D amplifier

SURROUND TECHNOLOGY

This next-generation surround sound technology delivers an authentic, multidimensional surround sound experience from any source.

ROAD NOISE CANCELLATION

The RNC technology reduces unwanted road noise inside the car by generating an anti-noise similar to the anti-noise created in AKG noise-cancellation headphones. The result is a more comfortable ride for the passengers.

EV SOUND ENHANCEMENT

EVSE technology realistically produces the sound of an engine (or any other sound) through the AKG Studio system.

VEHICLE NOISE COMPENSATION

VNC automatically increases the volume during common road distractions. The technology will also make sure your favorite artist or genre has just the right mix of bass, midrange and treble.
